Light weight easy to carry

CUSTOM CYLINDERS ON REQUEST

- Hydraulic cylinders, aluminium weight, single acting spring return, high pressure- Push force from 30 to 100 ton with range of strokes from 50 to 100 mm.

- Hydraulic cylinders made of high strength special aluminum alloy, light weight, easy to carry and very easy to handle. Used in applications in which reduced weight is an important factor.

- The guiding surfaces are sized to guarantee optimal performance in load offset absorption and stop-ring increases safety for the operator avoiding the over stroke of the piston.

- Equipped with high strength gaskets for maximum durability.

- 3/8" NPT female coupler with dust cap equipped.

- High strength saddle and possibility of mounting a tilting saddle for better distribution of the load to be lifted.

- The aluminum cylinders are different from those in steel and while offering advantages in terms of weight have a different behavior at fatigue. Hence the aluminum cylinder must not be used in intensive applications.

- All models feature carry handles.

- Possibility to design and produce custom made hydraulic cylinders on request, with dedicated geometries, performances and features.

CRMA

30-100 ton
Stroke 50-150 mm
700 bar

Different strokes and tonnages available.

Different models of aluminium cylinders available

- CSEA series, single acting cylinders, load return
- CSEAGS series, single acting cylinders, load return, with lock nut
- CRIA series, double acting cylinders, oil return
- CRMAFO series, single acting cylinders
